*'Go into the World and do Well,
But More Importantly go into the World
and do Good.'*

A MESSAGE FROM THE PRINCIPAL

My dear graduands, almost five years have passed since you entered Northeastern College. I am sure it was a milestone moment for you when you transitioned from primary to secondary school.

Today you are approaching another milestone. You are about to leave these hallowed halls to enter into the world of work, further your education, or engage in other pursuits of your choosing.

Put your best foot forward. Whatever your hands find to do that is honourable and beneficial, do with all your might.

Success comes to those who work hard, are committed, persevere, and make the necessary sacrifices.

Sometimes, however, you may have to create your own opportunities.

Other times, they may be available to you. Sometimes you may stumble, fall, and have to get back up. Other times you may get ahead without incident.

Whatever the circumstances, apply the skills you learnt during your journey here. Skills such as critical thinking, problem-solving, communication, emotional regulation, and continue to push forward.

You have the ability to do what others before you have done and greater. Such is the faith I have in you.

So, be encouraged. Rise to the top, academically and professionally. But remember, success is not only about upward movement. It is also about laterally extending oneself to uplift those in need.

***Go therefore into the world and do well,
but more importantly,
go into the world and do good.***
